SRI DEEPAK BOLISETTI

Hyderabad, India | 7780466827 | srideepakbolisetti945@gmail.com | Linkedin

Associate Developer with hands-on experience building and deploying mobile and web applications using Flutter and the MERN stack. Developed and maintained the complete Flutter application for Sendra using Clean Architecture and BLoC, with Firebase, REST APIs, Google Maps, and production deployment on Android and iOS. Also built web applications using React, Node.js, Express.js, MongoDB, and MySQL, including backend API development and deployment. Comfortable working with clients, understanding requirements, collaborating with developers, and supporting applications after release.

SKILLS

- **Mobile Development:** Flutter, Dart, BLoC, Clean Architecture, Android, iOS
- **Backend & APIs:** Node.js, Express.js, REST APIs, Swagger
- **Web Development:** React.js, JavaScript, HTML, CSS, Bootstrap
- **Firebase & Integrations:** Firebase Authentication, Firebase Cloud Messaging (FCM), Firebase Crashlytics
- **Databases:** MySQL, MongoDB, Firebase
- **Tools:** Git, GitHub, Visual Studio Code, SharedPreferences

EXPERIENCE

ITQHub – Hyderabad, India
Associate Developer | October 2024 – Present

- Developed and maintained mobile and web applications using **Flutter, React.js, Node.js, and Express.js**, contributing across development, integration, deployment, and post-release maintenance.
- Developed the complete Flutter application for **Sendra**, implementing features with **Clean Architecture and BLoC**, and integrating REST APIs, Firebase Authentication, Firebase Cloud Messaging, Firebase Crashlytics, Google Maps, and local storage.
- Developed Flutter screens for **EV Mart Plus** while working with clients to understand requirements, prepare documentation, and coordinate with the team to deliver features.
- Built backend services and REST APIs using **Node.js and Express.js**, working with **MongoDB and MySQL**, and used Git/GitHub for code collaboration and Swagger for API integration.
- Managed production deployment of mobile applications to **Google Play and Apple App Store**, and deployed and maintained web applications on **Hostinger VPS**, while resolving production issues and delivering ongoing improvements.

PROJECTS

Sendra – Ride Sharing & Parcel Delivery App
Flutter | Dart | BLoC | Clean Architecture | Firebase | REST APIs | Google Maps

- Developed and maintained the complete Flutter application for a ride-sharing and parcel delivery platform using **Clean Architecture** and **BLoC**, delivering **50+ production-ready screens** across the application.
- Implemented end-to-end user flows including **OTP authentication, ride booking, post ride, return ride, send parcel, carry parcel, chat, KYC, profile management, My Rides, and My Parcels**.
- Integrated **REST APIs, Firebase Authentication, Firebase Cloud Messaging (FCM), Firebase Crashlytics, Google Maps, and SharedPreferences** for core application functionality.
- Managed **Android and iOS production releases** through Google Play and Apple App Store, and continued post-release development through bug fixes, performance improvements, and feature enhancements.

EV Mart Plus – EV Products & Services App
Mobile Application | Flutter, Firebase

- Developed assigned Flutter screens and UI flows for an EV products and services mobile application.
- Worked with the development team to integrate and implement assigned features while maintaining consistency with the existing Flutter application.
- Participated in client meetings, gathered requirements, and prepared project documentation including **BRDs, MOMs, and presentation materials**.
- Collaborated with developers and stakeholders to clarify requirements, track changes, and support timely delivery of project features.

ITqHUB Employee Management & Attendance Portal
Internal Company Project | React.js | Node.js | Express.js | MySQL | JWT

- Developed the complete full-stack employee management and attendance portal using **React.js, Node.js, Express.js, and MySQL**, independently handling frontend, backend, and database integration.
- Implemented **role-based access for Admin, HR, and Employees**, with JWT authentication, employee management, attendance history, leave management, dashboards, reports, notifications, and search/filter functionality.
- Built a **Wi-Fi/IP-based attendance system** that restricts employee check-in and check-out to the company's authorized network, with access managed by Admin/HR.
- Deployed and maintained the complete application on **Hostinger VPS**, including the frontend, Node.js backend, database connectivity, and production updates; the system is actively used by ITqHUB employees.

ITqHUB Student Fee & Payment Management Platform

Internal Company Project | React.js | Node.js | Express.js | MongoDB | Razorpay

- Developed the complete full-stack platform using **React.js, Node.js, Express.js, and MongoDB** to manage student fee requests and online payments.
- Implemented **Admin and Employee role-based access** with JWT authentication, allowing employees to create student payment requests while admins manage employees and oversee payment activity.
- Integrated **Razorpay** to generate payment links and process online fee payments, with payment status tracking and transaction details available to administrators.
- Built payment management features including **student search and filtering, paid/unpaid/pending status, payment history, transaction tracking, employee-wise request visibility, and report export**, and deployed and maintained the application on **Hostinger VPS**.

EDUCATION

Bachelor of Technology – Mechanical Engineering **2020 – 2024**
Rajiv Gandhi University of Knowledge & Technologies, Nuzvid

Pre University Course - MPC **2018 – 2020**
Rajiv Gandhi University of Knowledge & Technologies, Nuzvid

Secondary School Certificate **2017 – 2018**
ZP High School, Magatapalli

Volunteer/Extracurricular Activities

Volunteer | National Service Scheme (NSS)

- Actively participated in community development and social welfare programs, contributing to initiatives such as environmental awareness campaigns and health camps.
- Worked collaboratively with a team to organize and execute events, helping raise awareness on various social issues and improving community engagement.
